Capital Region Technical Early Middle College

Click here for 2016-2017 application

Earn your diploma and a college degree through a Four Plus One Program!

The Capital Region Technical Early Middle College (CRTEMC) is a program that allows students to earn a free Associate's degree or certificate by extending high school by one year. While students complete the Michigan Merit Curriculum, they also take college courses from Lansing Community College or Davenport University at no cost to the student. All college costs including tuition, fees, textbooks, and transportation for grades 11 and 12 are included.

The Capital Region Technical Early Middle College expands on dual enrollment, and builds upon classes already offered through the Eaton RESA Career Preparation Center. Students receive support to help improve their academic performance as they complete both high school and college coursework and secure their future education and career related goals.

12th Grade

Attend a combination of remaining high school courses at local high school and college courses on campus.

13th Grade

Attend all courses on college campus.
Upon Completion earn High School Diploma and an Associate's degree or Certificate.

How will I know if the CRTEMC is for me?

It's up to you and your parents to decide if the program is right for you. Successful students are those who consistently make responsible choices and require little or no external controls to have good behavior or complete their work. As a college student you are required to be a self-directed learner that consistently demonstrates strong life management, emotional, social, and academic skills. Part of the application process requires a family interview where these sills are discussed.

Steps to Apply:

1. Download an application or pick one up from your high school counseling office.
2. Submit completed application by deadline.
3. Participate if family interview.
4. Complete placement testing.
5. Complete summer college readiness seminar.*

*Students will receive tentative letter of acceptance in June with details regarding summer college readiness seminar. Students MUST complete the seminar to remain enrolled in the Capital Region Technical Early Middle College.
